EDUCATION

•Bachelor of Technology in Computer Science and Engineering(Software Technology)

2020-25

Centurion University of Technology and Management Paralakhemundi

CGPA: 8.03

PERSONAL PROJECTS

•Online Food Ordering System

A website based facial authentication system, implemented using a Chrome Extension.

- Facilitating users' logins to websites without having to remember their credentials
- Used Live detection techniques to create high order security.
- Technology Used: HTML+CSS, JavaScript, Bootstrap PHP.
- To manage user data and food orders efficiently, we implemented a MySQL database.

•Online Resume Builder

A based web application which allow users to build a professional resume quickly and efficiently with our online resume builder.

- Choose from pre-designed templates, customize sections like education, work experience, skills, and achievements, and get guidance with tips and examples.
- Enjoy automatic formatting for a consistent look and download your resume in PDF or Word formats. Our user-friendly interface makes the process simple, ensuring a polished and professional result.
- Technology Used: HTML+CSS, JavaScript, Bootstrap.

•Mandi Management System

Developed this website to address farmer issues, facilitating the buying and selling of Crops .

- Developed automated operations of agriculture markets(Mandi) This system aims to enhance the efficiency of trading activities, improve transparency, and provide real time data to farmers, traders and market administrators..
- Technology Used : React, CSS, Spring-boot, REST APIs, MySQL.
